Nature of Blockchain; Assumption of Risk; Waiver of Claims.

Blockchains, DEXs, DeFi, crypto-assets, protocols, and their related technologies and functionalities are still emerging innovations that carry an extremely high amount of foreseeable and unforeseeable risk from security, financial, technical, political, social, and personal safety

standpoints. The mere access to and interaction with blockchains requires high degrees of skill and knowledge to operate with a relative degree of safety and proficiency. Crypto-assets are highly volatile in nature due to many diverse factors, including without limitation use and adoption, speculation, manipulation, technology, security, and legal and regulatory developments and application. Further, the speed and cost of transacting with cryptographic technologies, such as blockchains like those underlying the Services, are variable and highly volatile. Moreover, the transparent nature of many blockchains means that any interactions the User has with the Services and any blockchain will be publicly visible and readable in human form.

By accessing and using the Services, the User acknowledges the foregoing, and agrees and represents that it understands and assumes such and other risks involved with blockchains, DeFi, the Services, and related technologies (including without limitation any specific technical language used in this Agreement). The User further represents that it has all knowledge sufficient to use, and is informed of all foreseeable risks and the possibility of unforeseeable risks associated with blockchains, crypto-assets, Web3 Utilities, smart contracts, and the Services. The User further acknowledges, and assumes all risk related to the possibility, that any information presented via the Services may be inaccurate, possibly due to another party's malicious activities and possibly to the User's severe harm or detriment. The User agrees that we are not responsible for any of these or related risks, do not own or control any blockchain and that elements of the Services may be managed by a dispersed group of individual contributors who cannot guarantee the safe or accurate functioning of the Services, and shall not be held liable for any resulting harms, damages, or losses incurred by or against the User experiences while accessing or using the Services. Accordingly, the User acknowledges the foregoing, represents its understanding of the foregoing, and agrees to assume full responsibility for all of the risks of accessing and using the Services, whether mentioned in this Section or otherwise. The User further expressly waives and releases us from any and all liability, claims, causes of action, or damages arising from or in any way relating to the User's use of the Services.

9.1. Accordingly, Satlantis will not be liable, whether in contract, tort (including negligence) or otherwise, in respect of any damage, expense or other loss you may suffer arising out of such information or any reliance you may place upon such information. You should verify any information that you find on our Services that you wish to rely on, for any purposes whatsoever.

9.2. The use of any data or information about token sales, including our internal information and any linked content, provided by Satlantis or through the Satlantis Services (hereinafter referred as "Information"), does not and cannot guarantee that you will make profits or will not incur losses. You must use your own judgment or consult a professional for advice on such matters.

9.3. Information is intended merely for informational, entertainment and educational purposes.

9.4. You acknowledge and agree that Information is not intended to supply professional, legal or financial advice. Satlantis offers no advice regarding the nature, potential value, or suitability or any particular coin or token sale. You should not construe any Information displayed, published or provided by Satlantis as legal, tax, investment, financial or other advice.

9.5. Nothing on the Satlantis Services is a solicitation to buy, sell or hold digital items, digital assets, coins, or tokens.

10. AWARENESS OF RISKS

10.1. You must consider carefully whether Information is suitable for you in light of your financial condition and ability to bear financial risks.

10.2. All information, data, white papers and other materials concerning a particular token sale is prepared solely by its organizer, and such person is solely responsible for the accuracy of all statements it has made. UNDER NO CIRCUMSTANCES SHALL SATLANTIS BE LIABLE FOR ANY LOSS OR DAMAGE YOU OR ANYONE ELSE INCURS AS A RESULT OF ANY ACTIVITY THAT YOU OR ANYONE ELSE ENGAGES IN BASED ON ANY INFORMATION YOU RECEIVE THROUGH SATLANTIS OR AS A RESULT OF THE USE OF SATLANTIS.

10.4. You warrant that you understand that purchasing of internal tokens, digital assets, digital items and investment in cryptocurrency tokens is inherently highly risky and extremely speculative. They are unregulated, in an early stage of development, with experimental software and business models, no governmental protection of your investment, dramatic price volatility, the strong potential for inadequate documentation, and a high risk of fraud.

10.5. You should only purchase internal virtual and/or digital tokens, digital assets, digital items, or invest in cryptocurrency token projects if you have substantial technical knowledge and understand the specifics of the offering. Careful due diligence should be undertaken on the projects, network, tokens, and team behind any token sale. You must understand that your and others’ investments may not result in a usable or valuable token and you may lose the entire value of your investment.

10.6. Any token sales discussed on the Satlantis Services have not been reviewed by any regulatory authority.

10.7. No regulatory authorities have confirmed the accuracy or determined the adequacy of any token sales offering documents that may be mentioned through our Services.

10.8. Tokens may constitute securities pursuant to applicable security laws.

10.9. Tokens may not be appropriate for, or offered to, investors residing in the United States. The Securities and Exchange Commission (SEC) has warned investors residing in the United States that token sales may constitute securities, and by investing in tokens, investors may be purchasing unregistered securities offerings. Any dispute, controversy or claim arising out of, relating to, or in connection with the User's use of the Services, or in connection with this Agreement, including disputes arising from or concerning their interpretation, violation, invalidity, non-performance, or termination, shall be finally resolved by binding arbitration administered by the International Centre for Dispute Resolution under its applicable Arbitration Rules. A single arbitrator shall preside, and proceedings shall be conducted remotely to the maximum extent possible. Each party shall pay its own expenses in such arbitration, including its attorneys' fees, subject to reapportionment by the arbitrator in a final award. The language of the arbitration shall be English. The prevailing party shall be entitled to recover reasonable attorneys' fees and other costs incurred in such proceeding in addition to any other relief to which it may be entitled. Any interim or provisional relief that would be available from a court of law shall be available in accordance with the rules of ICDR, however, nothing in this Agreement shall preclude the parties from obtaining preliminary injunctive relief in a court of competent jurisdiction, if necessary to prevent irreparable harm pending the conclusion of any arbitration. The final arbitration award may be

confirmed in a court of competent jurisdiction, and the parties agree to waive any claim of improper venue or forum non conveniens. Except as may be required by law, neither a party nor an arbitrator may disclose the existence, content, or results of any arbitration hereunder without the prior written consent of both parties. The tribunal shall have the power to rule on any challenge to its own jurisdiction or to the validity or enforceability of any portion of the agreement to arbitrate. The parties agree to arbitrate solely on an individual basis, and that these Terms of Use do not permit class arbitration or any claims brought as a plaintiff or class member in any class or representative arbitration proceeding. The arbitral tribunal may not consolidate more than one person's claims and may not otherwise preside over any form of a representative or class proceeding. In the event the prohibition on class arbitration is deemed invalid or unenforceable, then its remaining portions will remain in force.

If any provision of these Terms of Use is held by a court or other tribunal of competent jurisdiction to be invalid, illegal, or unenforceable for any reason, such provision shall be eliminated or limited to the minimum extent such that the remaining provisions of these Terms of Use will continue in full force and effect.
